

I am concerned that LPFM will be given priority over FM translator service. I currently listen to K-LOVE on a daily basis with my elementary aged children. Besides myself being able to listen to a radio program with encouraging family-friendly themes, my children are able to listen to the same radio program as myself. I do not know of any other radio program that my whole family can listen to and feel safe with. I moved to Texas from California and was pleased to be able to listen to K-LOVE in both areas. My husband travels to many states for his job and is able to find K-LOVE at many of the cities that he needs to stay. The need to maintain family friendly, wholesome values is needed in our community and I hope that if and when the time comes that our family needs to move to another area again I will be able to have K-LOVE available for my family to listen to. Our local community needs programming such as K-LOVE provides and I do not believe that that any local programming will achieve the need that K-LOVE has provided. As I said my husband travels for his job (he has traveled to 49 states) and has not found any other radio program that I would feel safe to let my children listen to without fear that something will be presented that is unsuitable. Please do not do anything that would risk a family friendly radio program being replaced by a LPFM that is not.
